## What is After Birth : Mom & Baby Care ?

**After Birth: Mom & baby** care is a service that offers comfort and care of moms and babies in mind after the birth. After the delivery, the mother goes through many changes that can be physical and emotional while they learn to take care of their newborn. Therefore, proper rest for the mother is crucial for a quicker recovery.

In addition, postnatal care for women is essential after the delivery, keeping labor and birth in the account. It is designed according to a woman's individual needs and preferences. It aims to create a supportive environment for the new mother and her baby where even the families are involved. Here, the families are guided by professionals physiotherapists to take care of the mother and the baby. Also, the mothers are taught how to care for their babies and themselves.
